EDUCATION

SRM Institute of Science and Technology

B.Tech, Computer Science & Engineering — AI & ML Specialization

Kattankulathur, Tamil Nadu

Expected Aug 2028

GPA: 9.34 / 10

- Relevant Coursework: Data Structures & Algorithms, Machine Learning, Database Management Systems, Computer Networks, Operating Systems

PROJECTS

Anime Recommendation Platform | React, Node.js, AniList & MAL APIs

June 2026

- Built a full-stack anime recommendation platform with a React front end, integrating live data from the AniList and MyAnimeList (MAL) APIs
- Designed a polished, production-grade UI/UX and delivered personalized real-time recommendations based on user preferences

Heart Disease Prediction Model | Python, Scikit-learn, Pandas, NumPy

April 2026

- Built a supervised machine learning classification model in Jupyter Notebook to predict heart disease risk from patient health data
- Connected the model to a simple front-end interface, enabling users to input data and receive real-time predictions

Cache Management Strategy Research | Python, Machine Learning

March 2026

- Researched an ML-based cache management approach, benchmarking it against standard LRU and LFU baseline algorithms
- Evaluated approaches on latency and hit-rate performance to identify efficiency gains over traditional caching strategies

TECHNICAL SKILLS

Languages: Python, Java, JavaScript (Basic)

Web: HTML, CSS

Machine Learning & Data: Machine Learning, NLP, Data Analysis, Pandas, NumPy, Scikit-learn

Tools: Git, Github, MySQL, VScode

CERTIFICATIONS

- Supervised Machine Learning: Regression and Classification — Andrew Ng, DeepLearning.AI (Coursera)

LEADERSHIP & ACTIVITIES

Community Volunteer — Multiple Local NGOs

Ongoing

- Volunteered with several local NGOs, contributing time to community-focused initiatives and social outreach programs

Interests: Digital art & painting, graphic design, and website/UI design
